

PROJECT BUDGET JUSTIFICATION

I request only a stipend of \$5000 for support over summer 2010 while the majority of the research is being conducted. A stipend will reduce the need to pursue summer teaching opportunities for financial support so that most of my time can be spent on research.

Data for the research was collected in Fall 2008 by sending questionnaires to undergraduate students at Indiana University Purdue University – Indianapolis. The survey was administered online so data collection did not incur any costs.
